As a customer, I would like to be able to login to Monsoon Cloud, upload a CSV file containing UPC codes of products that I intend to list and view the matching products in Amazon Marketplace.

- Users can log into the app.
- User can upload a file of GTINs (EANs, UPC, or ISBNs).
- The app will match these GTINs to the Amazon.com catalog.
- The users can view the products they've added to the app.

@jseiffert since we have completed this Milestone - shall we close it?

---

jseiffert commented on Aug 28

Yep! Let's close it! 🛳 -ed!
